The secret sauce for James Cameron's 1994 blockbuster action/comedy True Lies was right there in the film's tag line: "When he said I do, he never said what he did." The Arnold Schwarzenegger/Jamie Lee Curtis hit about a wife who finds out her "computer salesman" husband is actually a top government spy — and then joins him on a perilous mission — took a 29-year path to this TV adaptation (a 2017 FOX pilot fizzled), but executive producer/writer Matt Nix's (Burn Notice) reboot may be worth the wait. The series, beginning Wednesday, March 1, on CBS, follows Harry and Helen Tasker, played with fiery chemistry by Steve Howey (Shameless) and Ginger Gonzaga (She-Hulk: Attorney at Law), who redefine "till death do us part" after Helen also becomes part of the U.S. spy agency Omega Sector and proves quite adept at beating back baddies. What else do we know? Here's the intel.

The movie's plot points, and its winning mashup of thrills and silliness, remain. Fans of the film will have that déjà vu feeling from the pilot, which sees the Omega team — including Harry's spy sidekick Gib (Omar Miller, The

Unicorn) — trying to foil an international arms deal. And Helen, spying on her husband because she suspects he's cheating, finds out he's a secret agent and joins the fun. More original intrigue will come later in the series, but, says Nix, "James Cameron made a pretty big film, and we will have references and Easter eggs for fans." For instance, Tom Arnold, who played Gib in the film, cameos as "a retired Omega operative with a complicated past and a tendency to drink beer in the morning."

The show has an updated spin on love and marriage. In the *True Lies* film, Harry and Helen have one child, a daughter who becomes a pawn in their mission. In the series, the couple try to keep their two kids, a daughter and a son, unaware of all the covert actions. Beyond these unique parenting challenges, "we explore issues such as awkward interactions with exes and trouble with work/life balance," says Nix. And don't look for a replay of Curtis' humiliating if ultimately energetic striptease; instead, "Helen is just this fish out of water in a kind of [James] Bond situation," says Gonzaga — which puts the sizzle back in the boudoir for the pair. "Harry and Helen's marriage is like any other," adds Nix, "only with a lot more explosions."

THE BLACKLIST

Beginning Sunday, Feb. 26, on NBC, the actionpacked long-running crime drama returns for its monumental 10th and final season (along with its 200th episode on March 19!) with a new twist. Now that Red (James Spader) has been outed as an informant to a recently escaped convict he helped put in prison, he will become the target of the targeted.

Harry Lennix, who plays FBI Director Harold Cooper, gave us a sneak peek at what's to come. "All of us are

reexamining what we can do as a task force. We've been disbanded and put back together, and people have left. So whether or not it can continue, and how it will continue, is always of the essence," he told us. "We know that Wujing seems to be on the hunt for us. But our bread and butter, really, is solving crime."

Asked about the successful longevity of the show, Lennix added, "I don't think you'll ever exhaust the dynamic of cop and robber. It's elemental." - Zhanna Slor

31 DAYS OF OSCAR

TURNER CLASSIC MOVIES OFFERS NONSTOP LINEUP OF FILMS BY GENRE.

Turner Classic Movies' 31 Days of Oscar programming event begins in March. All month long, beginning early March 1 and continuing through early April 1, TCM will offer a nonstop lineup of Oscarwinning and -nominated films from throughout cinema history. This year, titles in 31 Days of Oscar are grouped into themed genre blocks, with one or two themes spotlighted each day. For example, March 1 begins with a daytime "Family Ties" theme — featuring titles like *The Magnificent Ambersons* (1942) and *Father of the*

Bride (1950) — and an evening "Adventure" lineup of titles including The Adventures of Robin Hood (1938) and The African Queen (1951). The event concludes with films from a genre not frequently recognized by the Academy — horror — including Psycho (1960) and Poltergeist (1982). Making their TCM premieres during this year's 31 Days of Oscar are Lost in Translation (2003, late-night March 5), Gangs of New York (2002, late-night March 8) and The Fog of War (2003, March 29).

5 QUESTIONS with ...

AMANDA WARREN

Of CBS' "East New York"

By Jacqueline Cutler

As Deputy Inspector Regina Haywood on CBS' East New York (Sundays), Amanda Warren strikes that tricky balance of being tough yet caring. Haywood must be tough — find a woman who has advanced that far in a huge police department who is not. Warren, a New Yorker and NYU and Yale School of Drama alumna, was on

Gossip Girl (2021-23) and Madam Secretary (2019) before taking the lead on East New York. She chatted with us about why she loves playing Haywood and answered our "5 Questions."

- Why is Haywood a good fit for you? I found it difficult to see what I could contribute to certain cop shows. With this, it was different in the sense that with Regina, I embrace my femininity and my womanhood. She is stylish, and she embraces sexuality, feminism and style without apology or explanation. I find that with a lot of these, you have to be a certain type of woman to be deemed strong or to be deemed independent. And with Regina, she walks into a room, and she says, "You can like it or lump it."
- **2.** Tell me about a time that you were starstruck. Probably when I met Lloyd Richards (the late actor and dean of the Yale School of Drama) because I literally froze. He was a very frequent collaborator with playwright August Wilson, and I was absolutely dumbfounded that he was right there in front of me. I was starstruck in awe, shocked, thrilled, nervous. I couldn't even say anything. And he just said, "Hello. How are you?"
- What were some of your favorite shows growing up? I was already at uni, but *The Sopranos*. It was masterful and had a very lasting impact on what I hope to contribute to television and storytelling through the medium. And, of course, *Sex and the City*, which I am partial to as a New Yorker. And growing up? *Family Matters*, *Step by Step* and *The Fresh Prince of Bel-Air*.
- **4.** What job did you have before making it as an actress that still influences you? I was in hospitality, seating people at a steakhouse called The Strip House. And what it taught me was just care and kindness and patience, and a little bit of tolerance.
- What is the ideal day for you? If it's a day off, hopefully I'm at the lake house my fiancé and I are going to have, and meditating and reading and sipping on hot apple cider with a cinnamon stick and maybe taking a hike or getting on a boat and just being so grateful for family, friends, health, work and life in general.

Below Deck

7 pm, 9:30 pm on BRAVO

Chef Rachel wows the guests and delivers a dinner to remember, while the crew throws the pageant queen guests a 1980s party that is totally tubular. Meanwhile, guest LaQuish continues to be a pain and annoy the interior team.

Kids Baking Championship

7 pm on FOOD Season Finale

In order to find out which flavor they'll be making, the kid bakers must record a commercial for their baking business, and sell hosts Valerie Bertinelli and Duff Goldman on why they'd make a great birthday cake.

C.B. Strike 8 pm on HBO Season Finale

Breaking wind just may be the only clue needed for Cormoran (Tom Burke) as he continues to search for a serial killer in the Season 5 finale episode *Troubled Blood*. Jonas Armstrong and Linda Bassett also star.

Fantasy Island 8 pm on STARZ

Jeff Wadlow directed and cowrote this modestly budgeted 2020 supernatural horror film, a significantly reconceived take on the hit 1977-84 ABC fantasy series. This makeover, set before the events of that TV show, follows five people who visit the titular island where dreams are said to come true.

HOROSCOPES BY YASMIN BOLAND

a Pisces (born March 1), of "Big Sky: Deadly Trails"

ARIES (March 21 - April 19) A lot of people don't recognize an opportunity because they often arrive disguised as hard work. That likely won't happen with so much cosmic luck on your side. You've been lagging in energy and progress in recent months. Now is the time to remember how to strike while the iron's hot!

TAURUS (April 20 - May 20) It's your social life, networks and friendships that are about to embark upon a performance review. You may discover not everyone shares the same hopes and dreams as you do. This is the reason/season/lifetime territory. If things don't feel right with a certain friend, meditate on it!

GEMINI (May 21 - June 20) When it comes to your hopes, dreams and aspirations, the road certainly is rising up to meet you! So are your friends and networks too! Your only mission is to be open and available for all kinds of abundance. Embracing a spirit of generosity will take you a long way now.

CANCER (June 21 - July 22) If there were ever a time to let the accolades fall upon you it would be now! With two lucky stars blessing your professional and life direction zones, there's a lot of good fortune on your side. And, fortune favors the brave! Set your intentions and go for it!

LEO (July 23 - Aug. 22) We all go through our challenges in life and wonder if we'll ever get to the other side. Some people may refer to this as a test of faith. Fortunately, you've got some lucky stars in your spirituality and travel zones. Maybe a fresh perspective is all you need right now?

VIRGO (Aug. 23 - Sept. 22) You're embarking upon a wonderful new cycle of commitment and connection in relationships. If you're single, this will help you decide what you actually want. Your mission isn't to want for love but to allow it in! The more you

open your heart to love, the happier you will become.

LIBRA (Sept. 23 - Oct. 22) When it comes to love, happiness and togetherness, you've got some enviable stars right now! That said, all relationships do take work! In some ways, things are just getting better. In others, you'll see how much work there is yet to do. The ups and downs are unavoidable, so enjoy it all!

SCORPIO (Oct. 23 - Nov. 21) After some testing periods, you're about to discover what committing to happiness really looks like for you. If you're spoken for, aligning your schedules for quality time may seem boring, but necessary. Single? Commit to leaving the house and socializing! It's the little things in love that really make a difference.

SAGITTARIUS (Nov. 22 -Dec. 21) Your cup of love, joy and happiness should be truly full as lucky stars Venus and Jupiter join forces. If not, then make time to do more of what you love and spending time with the people that you love. Put aside any recent issues and see the joy that's all around you. Energy flows where energy goes.

CAPRICORN (Dec. 22 - Jan. 19) Feeling gratitude and abundance for having a happy home life seems to be underrated a lot in Western culture. Right now, your stars want you to focus on all the happiness and wealth you have at home rather than your external world. True contentment is found with a peaceful home.

AQUARIUS (Jan. 20 - Feb. 18) Your ruling star, Saturn, is about to arrive in your cash zone. Thus, making what you earn, spend and save a focus for longer-term growth. Rather than making your life about budgets and spreadsheets, spread a little magic instead! A big part of attracting wealth is feeling wealthy!

PISCES (Feb. 19 - March 20) A new cycle of growth will encourage you to put your best self forward. This week, your job is to rise up to any challenge that asks you to be confident, optimistic or brave! Fortune favors the brave. If fortune is what you want, you have to rise up and claim it!

WEDNESDAY March 1

The Mandalorian on DISNEY+

Season Premiere

The third season of this action adventure series continues the travails of the lone bounty hunter (Pedro Pascal), operating in the Outer Rim, away from the dominion of the New Republic, who goes on many surprising and risky adventures.

Survivor 7 pm on CBS Series Premiere

It seems like yesterday that Richard Hatch won the very first Survivor with a unique mixture of grit and nudity. Luckily, we've come a long way as the Season 44 premiere has a perfect mixture of brains, brawn and bravado.

True Lies 9 pm on CBS Series Premiere

This series premiere follows Harry Tasker (Steve Howey), a first-class international spy for U.S. intelligence agency Omega Sector, and his wife, Helen (Ginger Gonzaga), a language professor bored with her daily routine.

The Wine Down 9 pm on BET Series Premiere

If you like real talk, Mary J. Blige and wine, this is the show for you. This new series will bring together the hottest, most outspoken, highly sought-after people for raw, provocative, insightful and real conversations over wine.

Does "General Hospital" Truly Care What Fans Think Of The Show's Storylines?

In the golden age of *General Hospital* when Luke and Laura (Anthony Geary and Genie Francis) were saving the world from being frozen and getting married in front of 30 million viewers, soap fans let their thoughts be known by writing letters to the show. As the ABC soap opera readies to celebrate its 60th anniversary, the show's producer and writers are speaking out about fan interaction and feedback today, which primarily takes place on various social media platforms.

Instead of snail mail letters reaching actors and producers several days or, more likely, weeks after a story point has played on air, fans today can let their thoughts and feelings be known in real time. Viewers, in fact, don't even have to wait till an episode is completed before they tweet out their reaction to an onscreen development.

Is the creative *GH* brass influenced by what's said about the show on the web? The answer is both yes *and* no. "I can say that I avoid [social media] at all costs," says Chris Van Etten, co-head writer. "However, there is the occasional episode that may speak dearly to me, and that will be the time when I turn on my VPN [virtual private network] and I go on Twitter [to find out] what people are saying."

However, those instances are rare. "In general, I don't think it helps," the scribe adds. "It's a self-selecting group, no matter where you go to look at social media. And I don't think it's necessarily entirely representative of the audience. And for Dan [O'Connor, co-head writer] and me to construct the best story for the cast and for the show going forward, I think that we have to wed ourselves to our passion and our ideas without allowing too many outside voices contaminate them."

Social media, though, can't be denied, says Frank Valentini, executive producer. "I don't have that luxury," he says. "Social media, as we all know, are hammers looking for nails. I think it's important to weed out certain constructive criticism, if you will. Oftentimes if there's something that people are saying and we've maybe felt that way or it [may] shine a light on something that we were concerned about or confused about, we might sort of take it with a grain of salt."

ASK MAT

WHERE'S THE EMMY **FOR THE** GOOD **DOCTOR?**

@TVGMMattRoush

Question: Why hasn't The Good Doctor received an Emmy? It's amazing. And Freddie Highmore is an amazing actor! - Judith

Matt Roush: I'm afraid it's out of our hands. (Although don't hesitate to vote when the People's Choice Awards come around.) Network dramas are pretty much invisible when it comes to industry recognition (the Emmys, the SAG Awards, etc.) and hospital dramas might as well not exist. The timing of this question, which has been raised before, may have been prompted by the Jan. 23 episode in which Freddie Highmore's character of Dr. Shaun Murphy waited nervously for the results of his pregnant wife Lea's operation, reacting with unfettered joy and uncharacteristic hugs when it was successful. This very question ("Has Freddie ever won an Emmy?") came up in my own household during that emotional scene, and I had to say no - although he has been nominated for several critics' awards as recently as 2020 and 2021. The competition is always fierce, but I'd settle for a nomination. The work he's doing is at a very high and tricky level, and it's a shame that the genre works against him, as well as the stigma of airing on broadcast.

CHEERS & JEERS

by Damian Holbrook TV Guide Magazine

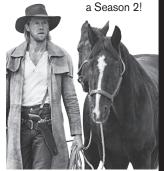

CHEERS TO *Poker Face's* Natasha Lyonne

(below) for playing to her strengths. Blessed with gravely good-humored appeal, like comic curmudgeon Peter Falk, the Russian Doll star is aces as her generation's Columbo in Peacock's crafty-quirky murder-ofthe-week dramedy.

CHEERS TO Walker Indepen-**Dence's WILD RIDE**,

As colorful as Yellowstone and cheekier than a saloon dancer, The CW's frontierset Walker prequel (with Matt Barr, below) deserves

follow Cheers & Jeers

@damianholbrook

Jeers to *NCIS*

for not recruiting Zane Holtz for a full-time position. Is it just us or does a Butch-and-Sundance vibe radiate when the Katy Keene alum shows up as undercover agent Dale Sawyer? His sparring, then partnering, with Torres (Wilmer Valderrama, above right, with Holtz) feels spot-on. CBS: Get this guy on contract.

Jeers to Teen Wolf: THE MOVIE

for that death. We won't tell you who it was (not Tyler Posey, above!), in case you haven't yet had the chance to catch the Paramount+ feature-length revival of MTV's beloved thriller. Just know that we were heartbroken to watch as one of our now-grown heroes headed off to that great full moon in the sky.

The New York Times Presents

9 pm on FX

If you were rich and famous in the 1990s and needed a problem to go away, you hired Anthony Pellicano. Hollywood's dirtiest private eye did whatever it took to hide the sins of his clients. His victims accused him, in some cases, of ruining their lives forever.

SATURDAY March 11

Game of Love 7 pm on HALL Premiere

Audrey (Kimberley Sustad) is a board game designer who gets paired with Matthew (Brooks Darnell), a researchdriven marketing consultant, to create a new game to help players find love in this 2023 romance.

An American in Paris 7 pm on TCM

This lavish 1951 movie musical is still a dazzling crowd pleaser, combining the formidable skills of composer George Gershwin, director Vincente Minnelli, actor-dancer-choreographer Gene Kelly and actress-dancer Leslie Caron. 'S wonderful!

Lucy 7 pm on HBO

Action-movie specialist Luc Besson skillfully merges sci-fi and espionage in this clever 2014 story of a woman – smartly played by Scarlett Johansson – whose mental and physical skills increase dramatically after she ingests some of the dangerous drug she's forced to transport.

Shazam!

7:30 pm on TNT

Director David F. Sandberg delivered a hit with this charming and funny adaptation of a DC Comics property, about young Billy Batson (Asher Angel), who – through a very complicated back story – gains the power to turn into an adult superhero (played by Zachary Levi).

Better than cannabis, better than CBD

New Joint-Supporting "Miracle Oil" Capsule Delivers Hip, Knee, and Shoulder Comfort in Just Days

Thousands of Americans are rediscovering normal freedom of movement thanks to a "miracle oil" capsule that's outperforming hemp in promoting joint comfort.

According to the official figures from the CDC, more than 58 million Americans are living with joint discomfort. This epidemic has led to a search for alternative approaches – as many sufferers seek relief without the harmful side effects of conventional "solutions."

Anti-aging specialist Dr. Al Sears is leading the way with a new formula he calls "the most significant breakthrough I've ever found for easing joint discomfort."

The capsule is based on a "miracle oil" historically treasured for its joint health-supporting properties. Marco Polo prized it as he blazed the Silk Road. And to this day, Ayurvedic practitioners rely on it to promote optimal joint health.

Now, with a modern twist backed by science, Dr. Sears is making this natural solution for joint health available to the public.

Your Body's Hidden "Soothing System"

Joint health research changed forever with the discovery of the endocannabinoid system (ECS) in 1992. Up until that point, research on cannabinoids focused on psychoactive effects. Now, scientists were looking at a new way to fight occasional aches and pains.

Your ECS serves as a central "signaling system" that tells your body how to react to things you do every day. It controls several critical bodily functions such as learning and memory, sleep, healthy immune responses – and your response to discomfort.

A recent study revealed a direct link between the ECS and creaky, sore joints. Researchers at the University of Edinburgh studied the aging of mice with endocannabinoid deficiencies versus "normal" mice.

As they aged, the deficient mice had a whopping 60% more joint degeneration than the mice with a healthy ECS.

As the name suggests, the ECS responds to cannabis. At the time it was discovered, scientists assumed that was the best way to support it. But thanks to Dr. Sears' all-natural solution, you can power up your ECS without marijuana.

"Calling it the 'endocannabinoid system' was a misnomer from the very beginning," Dr. Sears explained. "Modern research reveals that you don't need cannabis to activate this incredible system. You don't need to 'get high' to get joint relief."

A scholarly review found that plants and herbs that don't produce mind-altering effects can support the ECS and help it maintain its healthy functions.

The active ingredient in Mobilify soothes aching joints in as little as 5 days

This includes common foodstuffs, such as kava, chocolate, black pepper, and most significantly – the star ingredient to Dr. Sears' own **Mobilify** formula - frankincense.

Modern scientists say this natural ingredient meets "cannabinoid tetrad" – the signs used to determine if something supports the ECS. While it doesn't produce a "high" like cannabis does, it binds to the same receptors to support a healthy response to discomfort.

All the Benefits of CBD – Without Cannabis

Indian frankincense, the chief ingredient in **Mobilify**, has been shown to provide all the benefits of cannabis without any feelings of sluggishness or sleepiness.

And studies show that users don't have to wait long for the comfort they're looking for.

In a study published in the International Journal of Medical Sciences, 60 patients with stiff knees took 100 mg of Indian frankincense or a placebo daily for 30 days. Remarkably, Indian frankincense "significantly" supported healthy joint function and relieved discomfort in as little as five days.

Additional research linked regular use to lasting comfort.

In another study, 48 participants were given an extract made from frankincense for 120days. When the results came in, researchers determined the extract strongly supported joint comfort – especially in the knees.

These results were all achieved without marijuana. Research continues to back up the idea that you can support smooth, strong, and healthy joints naturally – without tiredness or sluggishness.

Get Moving Again with Mobilify

Mobilify has already helped thousands of Americans stay on their feet and breeze through their daily activities with ease.

One user even reported getting results the same day it was used.

"Mobilify really helps with soreness, stiffness, and mild temporary discomfort," Joni D. said.

Larry M, another user, compared taking **Mobilify** to living a completely new life.

"After a week and a half of taking **Mobilify**, the discomfort, stiffness, and minor aches went away...it's almost like being reborn," he said.

Dennis H. said it helped him get back to his favorite hobby.

"I can attest to **Mobilify** easing discomfort to enable me to pursue my golfing days. Definitely one pill that works for me out of the many I have tried," he said.

How to Get Mobilify

Right now, the only way to get this powerful, unique Mobilify formula that clobbers creaking joints without clobbering you is directly from Dr. Sears. It is not available in stores.

To secure your bottle of this breakthrough natural joint discomfort reliever, buyers should call with Sears Health Hotline at 1-800-329-8498. "The Hotline allows us to ship the product directly to customers."

Dr. Sears believes in this product so much, he offers a 100% money-back guarantee on every order. "Just send me back the bottle and any unused product within 90 days, and I'll send you your money back," said Dr. Sears.

The Hotline will be taking orders for the next 48 hours. After that, the phone number may be shut down to allow them to restock. Call 1-800-329-8498 to secure your limited supply of Mobilify.
