SHŌGUN!

An Epic New Telling Comes To FX

By Zhanna Slor

Shōgun, 2024, FX. All Rights Reserved. Credit: Kurt Iwanenko/FX

Based on the epic 1975 novel that also inspired the 1980 miniseries, the new series *Shōgun* (Tuesdays beginning Feb. 27 on FX) takes place in feudal Japan and follows the rise of Lord Toranaga, a powerful Japanese magnate, through the eyes of an English sailor named John Blackthorne. Both he and Lord Toranaga, played by Hiro Sanada, were modeled after real people.

"I played that role before. I played him twice," said Sanada, who was also a producer on the show for the first time. "Because this is based on the novel, I tried to forget history and focus on this new version of the script."

"Initially I think we came at these characters thinking we could broaden what they did or even deepen some of the mischief," said Rachel Kondo, a cowriter and coproducer who spearheaded this series with her husband Justin Marks, who is also a cowriter and executive producer. "But we had to remember that we were working with figures who have been studied, figures who exist in the consciousness of a nation."

Though it is a historical series akin to *The*

Last Kingdom, part of what makes the show so successful is that you don't have to be a history buff to enjoy it, because its focus on character and story highlights timeless themes: forbidden love, betrayal, secret alliances, and all the aspects that unfortunately arise when power is shifted and sought after. "It is a very universal drama," added Sanada. "Not just action, not just violence, geisha, stereotypes. Very universal, very poetic. I love it."

The show, which was shot in and around Vancouver, is visually impressive as well. It's clear a lot of work was put into accuracy and presentation. "Every single costume that came to the studio, I checked and taught how to wear," said Sanada. This was only one of many challenges the crew faced; in addition to making it historically and regionally accurate, there were several language barriers to break through. "The process of translation was very complicated, and it went through a number of people to polish it to get it to what it is," Marks added.

"We went back and forth many times," Sanada agreed. "It was like a jigsaw puzzle."

"Deal Or No Deal" Goes Tropical

"The bones of *Deal or No Deal* are there, so fans of the original game will be happy," promises Joe Manganiello (*True Blood*, *Magic Mike*), who hosts *Deal or No Deal Island*, a juiced-up, island-centric version of the game show (Mondays beginning Feb. 26 on NBC). Yes, the briefcases containing big bucks are back — but with *Fear Factor* and *Big Brother* on the resumés of the creative team, expect a very different spin on the 2005-09 NBC hit hosted by Howie Mandel (now an executive producer). Since this update doesn't take place in a studio like the original, the competition series finds 13 contestants dropped onto an undisclosed jungle island where they are left to duke it out for cases worth millions and millions of dollars that are hidden all over this island. "The lowest-value cases put people up for elimination. The highest-value cases give people the power to choose who faces the Banker in a game of *Deal or No Deal* in a temple," Manganiello shares. At the heart of the show are the personal stories attached to the competitors that are at times uplifting and at times heartbreaking. "But there's also a clear-cut villain right out of the gate that I was shocked about," he adds. "The social experiment is what always fascinated me about *Survivor*, and that is very much in play." — *Jim Halterman*

Where Was Rick Grimes?

Fans of *The Walking Dead* have been waiting *for-ev-er* to find out what happened to leader Rick Grimes (Andrew Lincoln), who was presumed dead at the end of Season 9 when he exploded a bridge to save his warrior wife Michonne (Danai Gurira) and their people. What Michonne and the rest of the survivors didn't know was that a severely injured Rick was saved (or was it abducted?) by the former Scavengers leader Jadis (Pollyanna McIntosh) and her allegiance with the Civic Republic Military (CRM). But in the series finale, four years later, we got a new glimpse of Rick, barefooted on a walker-infested beach, where a CRM helicopter hovers with a man telling him to surrender as "there's no escape for the living," while his lover Michonne desperately tries to find him. While Jadis' connection with the CRM was explained in *World Beyond*, here McIntosh told us just a little on the six-episode new series *The Walking Dead: The Ones Who Live* (Sundays beginning Feb. 25 on AMC). "It's not black and white. I think that's one of the reasons that people love it so much is that the show understands the nuance of being a human," McIntosh shares. "And life ain't black and white, it's complicated. I would say watch it with somebody you can squeeze the hand of, that you can hide in the shoulder of, and that will be there to hold you when you're having a good cry." — *Barb Oates*

Elsbeth Gets Her Own Show

"She's unique and unorthodox. She's colorful. She's a scatterbrained genius." Can't wait to meet the character detailed by Emmy winner Carrie Preston? You already have! Elsbeth Tascioni, Preston's scrappy Chicago defense attorney from *The Good Wife* and *The Good Fight*, has landed her own witty spinoff *Elsbeth* (Thursdays beginning Feb. 29 on CBS). "I feel like one of the luckiest actresses around because almost nobody gets the opportunity to play the same character on three different shows!" Preston says. When the series opens, Elsbeth has left Chicago and moved to New York City, as she has been brought in by the Justice Department on what's called a consent decree. "In essence, she needs to babysit the NYPD and make sure they don't do anything illegal or litigious," Preston says. "To the cops, she's this crazy lady who keeps sticking her nose in their business, but it turns out Elsbeth is a brilliant de facto detective." — *Ileane Rudolph*

HBO will premiere its 6-episode original series *The Regime* on Sunday, March 3 at 9 PM ET/PT, available to stream on Max. Starring Academy Award winner Kate Winslet (pictured above), the series tells the story of one year within the walls of the palace of a modern European regime as it begins to unravel. Also starring are Matthias Schoenaerts, Guillaume Gallienne, Andrea Riseborough, Martha Plimpton and Hugh Grant.

Nat Geo will premiere its docuseries *Queens* on Monday, March 4 at 8 PM ET/PT, streaming next day on Disney+ and Hulu. Narrated by award-winning actress Angela Bassett, this look into the natural history realm features matriarchies and female leaders around the world who tell a story not only of sacrifice and resilience but also of friendship and love among animal queens. They aren't always kind or gentle, letting nothing come between them and the success and safety of their families. Four years in the making, this seven-part series leverages cutting-edge technology to reveal surprising insights into how females in the natural world rise to power, often relying on cooperation and wisdom over brute strength to get ahead. The final episode of the series celebrates the women who have gone to the ends of the Earth and dedicated their lives to documenting and protecting animal queens.

FOX will premiere Season 11 of its Emmy Award-nominated singing competition show *The Masked Singer* on Wednesday, March 6 at 8 PM ET/PT. Superstar singer-songwriter Rita Ora joins panelists Ken Jeong, Jenny McCarthy Wahlberg and Robin Thicke, alongside host Nick Cannon, for all-new theme nights and performances from a new group of masked celebrity singers. They face off against one another shrouded from head-to-toe in an elaborate costume, complete with full face masks to conceal his or her identity. With each performance, the host, panelists, audience, viewers and even the other contestants are left guessing who is singing behind the mask. If you have watched this series previously, you know the level of fan-favorite celebs, iconic music selections and fun themes we are treated to.

ERIKA CHRISTENSEN

Of ABC's "Will Trent"

By Zhanna Slor

If you find yourself in trouble, Angie Polaski of ABC's *Will Trent* (Tuesdays) is definitely the detective you want on your case. Well, if she's sober. A complex character who is great at her job but can never quite move on from her traumatic past, Polaski — played by Erika Christensen — is a bit of a wild card, as well as GBI agent Will Trent's on-again, off-again girlfriend. Like the show, she is based on a character from Karin Slaughter's series of *Will Trent* novels, though she is quite different on the page than onscreen. We recently sat down with Erika so she could answer our "5 Questions."

1. What can you tell us about the new season of *Will Trent*?

A lot of groundwork was laid last season for delving into the backgrounds of these characters as much as their futures. What I love about the writers on our show is that they don't tend to miss an opportunity to pay something off that they've set up. There are a lot of supporting characters that we met in previous episodes that are still a part of the world that we live in, as well as some great new characters. It just feels real and exciting and cohesive to keep these characters around and not have them be forgotten.

2. How do you feel about Angie, as a character?

I just see her as this woman reborn. She's strong and independent and doing what she wants to do with her life, and she comes from a place of a lot of trauma, and I just respect her. Ramón [Rodríguez] and I were already friends, and we go way back. When I first read the script, I thought the characters were fantastic and the dialogue was fantastic, and it felt like something really elevated. I was like, oh, yes, Angie and I are right for each other right now at this moment in my life. But I felt that connection with her where she is tough in a way that doesn't require that she's really got to prove it to you. She's just kind of doing her thing and she's confident.

3. Do you stay in touch with your costars from *Parenthood*?

I do. I'm definitely closest with Sam Jaeger, and, in fact, I'm going to call him when I get off the phone with you.

4. What are your favorite shows to watch?

Right now, I'm watching *True Detective* and the new season of *Fargo*. Then when I'm done with those, I'm going to go and finish *Only Murders in the Building*, which is so great. It's got its own niche. I really love what they've done there.

5. In an alternate world, if you weren't an actress, what kind of job do you see yourself doing?

Now that I know what it's like working in the entertainment industry, I would work in the entertainment industry. I would like to be either a writer or a singer; I had musical aspirations at one time.

HOROSCOPES

By YASMIN BOLAND

Joel Kim Booster, a Pisces (born Feb. 29), of "Loot"

– it's actually very important that you get this message. Basically, detox or you could find yourself in a festering situation. Cleanse!

LIBRA (Sept. 23 - Oct. 22) Seek a balance between what could be a rather active and exciting personal life and all the daily duties you have to take care of to keep your life ticking over. Of course, we all know which is more interesting but you have to play it smart. Slowly does it.

SCORPIO (Oct. 23 - Nov. 21) Don't expect your relationships to settle down – there are tons more twists and turns set to play out. On the one hand, you're well placed to feel very loved up. On the other, expect one curveball after another relationship-wise this year and you won't be disappointed! Love is a rollercoaster.

SAGITTARIUS (Nov. 22 - Dec. 21) What you really need to get in your head at this point is that your word is now your wand. As you say it, so it shall come. OK, maybe not that easily but every time you complain you'll attract more to complain about and every time you celebrate... You get the idea....

CAPRICORN (Dec. 22 - Jan. 19) Now is the time to blast away any self-doubt you may have about your ability to create a good life for yourself. If you can do this, the next decade or two will be amazing and you could even get some fairly impressive cash rewards too. Love yourself lots!

AQUARIUS (Jan. 20 - Feb. 18) Remember that song from the 1990s (I've got) The Power? It could be your theme song now, as the planet of power and passion (and paranoia and darkness!) Pluto moves back into your sign. So shed the past, stop the darkness and paranoia, throw out the dead-wood. Step into your power!

PISCES (Feb. 19 - March 20) One problem of having Saturn in your sign, as you do right now, is that there can be so many people who want a piece of you and who are making demands. Try to bear it by remembering this is a cycle and it won't last forever. Dream more and worry less.

ARIES (March 21 - April 19) Get used to the idea that you need to go through your friends lists and see who deserves their place there and who doesn't. That might sound super harsh but with burn-it-down Pluto in your Friendship Zone for a long stay, it's either that or get burned. Cull as needed!

TAURUS (April 20 - May 20) The stage is now set for you to have some big, even life-changing experiences, thanks to mega planets lucky Jupiter and change-maker Uranus in your sign and powerful Pluto in your Ambitions Zone. Do go for it – it being whatever your heart really wants. Don't waste this rare opportunity. Make plans.

GEMINI (May 21 - June 20) Now is the time to find a balance between your home and working life, with a possible leaning towards your professional ambitions. If you don't put in the effort now, it could easily become harder and harder to make the splash you otherwise could. Hard work will bring you rewards.

CANCER (June 21 - July 22) The pressure is now off your love life again – any relationships which are still standing must be very strong! The good news is that you're going to feel less under pressure in your existing partnership or, if you're single, less pressure to find a partnership. Breathe out relationship dramas.

LEO (July 23 - Aug. 22) It's tempting to say that if your love life is driving you a little around the bend, then you need to get used to it! But that seems a little harsh so perhaps the best advice is to focus on your working life and career ambitions. Avoid being manipulated or manipulating.

VIRGO (Aug. 23 - Sept. 22) Now is the time to detox from anyone or anything that you know is doing you no good! This isn't just a little bit of throwaway advice

Arianne Zucker Out At "Days"! Ex-Producer Albert Alarr Responds To Her Lawsuit

Arianne Zucker, currently in a front-burner baby swap story as Nicole on *Days of our Lives*, has announced that she's left the show. The actress has filed a lawsuit against her former employers for wrongful termination among other things. TMZ broke the story that the Daytime Emmy-nominated star was gone from the show after, she says, they failed to renegotiate a new deal in good faith.

The actress says she was subjected to "nonconsensual sexual touching and sexually harassing comments" during former co-executive producer Albert Alarr's employment, saying Alarr would pull her close to his chest and make sexual moans while doing so.

Alarr was cleared by an internal investigation last year. After the story got traction in the media, he was relieved of his duties. Then, Zucker's contract came up for renewal. A spokesperson for *Days* said that she was offered an increase in money. "Rejecting Ms. Zucker's counteroffer does not constitute retaliation," a *Days* spokesperson said.

Now, Alarr, through his attorney, is releasing his own statement that was published by website Soap Hub: "Every day for decades, Albert worked with hundreds of people who can — and will — testify about the falsity of Ms. Zucker's mischaracterizations of him. We relish having a chance to share the truth and putting an end to her offensive claims once and for all."

As *Days* shoots several months ahead of when episodes stream on Peacock, viewers can expect to see Nicole on their screens for a while.

Back To Port Charles: Steve Burton is coming back to *General Hospital* and his iconic role as Jason Morgan (provided the show doesn't have him play a new character). His return airdate is set for Monday, March 4.

Awards Season: *Days* and *Dancing With the Stars* alumnus Trevor Donovan (ex-Jeremy) and Danica McKellar (*The Wonder Years*; *Dancing With the Stars*) will host the 31st Annual Movieguide Awards, set to air on Great American Family on Thursday, March 7 at 8pm ET.

Donovan (pictured) champions anti-bullying through his foundation, Team Upstanders. "If you're doing positive things in life that create happiness and productivity in your own heart, you end up meeting like-minded souls," Donovan says. "Great American Family is producing entertainment for a vastly underserved audience, and I am proud of the stories we create."

WHEN WILL THERE BE NEW JEOPARDY! PLAYERS?

Question: We love *Jeopardy!* and are delighted that Ken Jennings is now the sole host. But when will there be new contestants as opposed to the current tournaments format? –Eileen

Matt Roush: We've been covering this topic for a while—most recently in November—and you won't be surprised to learn that many *Jeopardy!* fans are itching to get back to regular play. But it's still going to take a while. Part of the reason we've been seeing so many past contestants, either in Second Chance or Champions Wildcard formats, is because of the continuing fallout from the writers' strike, during which time the show was using recycled clues (delaying the Tournament of Champions until the writers' returned in late 2023). The show is now airing Champions Wildcard episodes with contestants from Season 39, scheduled to run through Feb. 22. After that, we'll finally get a Tournament of Champions, but that will then be followed by a *Jeopardy!* Invitational Tournament for super-players to compete for a spot in the next *Jeopardy! Masters* tournament. Only then, most likely in April, will we see "regular" episodes featuring new contestants.

CBS News: State of the Union 2024

6 pm on CBS

Love him, loath him or find him somewhat benign, Joe Biden, the 46th President of the United States, addresses the nation with his State of the Union. From inflation and infrastructure to healthcare and climate change, the U.S. has a lot on its plate.

World's Most Unexplained

8 pm on TRAVEL

There's no denying that certain objects hold power over those who believe, but science struggles to explain circumstances surrounding various items. Experts examine the curse of the tomb of Tutankhamun, numerology and a medieval script.

Caught!

9 pm on DISC

Humans think we are the top of the food chain in all situations. But nature has a funny way of putting us back in our place whenever the mood strikes: whether it be an angry bison charging a tourist, a bear attacking a hiker or storms destroying property.

CHEERS TO LAW & ORDER'S

new recruit. Given his A+ ability to juggle gallows humor and gravitas, the casting of *Veep* vet Reid Scott as Det. Vince Riley is the smartest move NBC's procedural has made since the show hired *Supergirl* alum Mehdad Brooks to play Jalen Shaw.

CHEERS TO TRAITORS

for earning our loyalty. Season 2 of Peacock's gothic and so-good competition is a crafty cocktail of *Clue*, *Big Brother* and backstabbing that is elevated both by host Alan Cumming and legit reality-TV royalty like Phaedra Parks (*Real Housewives of Atlanta*), Peter Weber (*The Bachelor*) and a slew of actual *Survivor* winners.

follow Cheers & Jeers

JEERS TO THE OFFICE REBOOT

for not even looking good on paper. According to recent reports, the idea is to set the potential new take on the NBC gem in a different office with an entirely new staff. So no Scranton team? No Creed? No Kelly? No thank you.

JEERS TO THE BOLD AND THE BEAUTIFUL

for keeping it all in the family. Let's just say it: This engagement between step-siblings Hope Logan (Annika Noelle) and Thomas Forrester (Matthew Atkinson) is dripping with ick. Sure, they aren't blood-related, but come on. What's next? Literal kissing cousins?

New Metabolic Cocktail Turbo-Charges Your Fat-Burning Engine

Palm Beach MD reveals his new “better than keto” weight loss breakthrough, which starts with just one cup per day.

Americans struggling to maintain a healthy body weight can recapture their ketogenic fat-burning power by beginning the day with a new, delicious beverage.

Dr. Al Sears, an anti-aging doctor based in Palm Beach, Florida, has developed a breakthrough program designed to promote healthy blood sugar, maintain peak metabolic performance, and help adults get the most out of every workout.

The bumper-to-bumper approach includes a revolutionary diet, 12-minute exercises, and a breakthrough formula that helps the body turn fat into fuel.

The program’s release comes at the perfect time as the country’s challenges with body weight continue to tip the scale

More than *one third* of American men and *one quarter* of American women struggle to maintain a healthy body weight, according to government data.

But Dr. Sears says Americans have more control over their metabolism than they think.

“Excess weight gain isn’t inevitable,” the anti-aging MD said. “With the right protocol, you should have all the fat-burning and muscle-building power you need. And it’s as easy as starting the day with the right drink.”

Burn Fat Without Counting Carbs

In recent years, many Americans have attempted to adopt the *keto diet* to lose fat and build muscle.

The diet is known for severely limiting carbohydrate intake – ditching foods like bread, pasta, rice, and cereal – as well as increasing physical activity.

The goal is to reach *ketosis*, a metabolic state in which the body burns fat for energy instead of carbohydrates. To accomplish this, many turn to intermittent fasting, limiting meals and strenuously “counting carbs” throughout the day.

But this rigid approach has proven easier said than done. Over 50 percent of people who try the keto diet in medical studies

fail to adhere to it, negating short-term weight loss.

“Americans are sick and tired of these ‘one-size-fits-all’ diets,” Dr. Sears said. “That’s why my team and I revisited our best formula, made it even *stronger*, and attached it to the most effective weight loss program I’ve ever seen.”

For his new, updated program, Dr. Sears and his team added metabolism-supporting *polyphenols* to the formula to create a delicious morning drink to start the day with.”

While Dr. Sears’ original Recovery formula helped maintain a normal metabolism, his new “ultra” formula encourages users to reach new heights.

“This ‘metabolic cocktail’ is going to help thousands not only reach their goals, but *surpass* them,” Dr. Sears added.

Curbing Cravings

In this new program, users start their day with Dr. Sears’ new **Ultra Metabolic Rescue** formula. The powder drink is supported by vigorous ingredients that can help users avoid the foods they don’t need and unlock productive energy.

Chromium, a mineral present in many foods including shellfish, is a prominent addition.

In an eight-week study on women struggling to maintain healthy bodyweight, scientists found that chromium intake reduced hunger and cravings to a normal, healthy level.

Another study found that chromium can help people reduce excess “binge eating” episodes associated with negative moods and attitudes.

Scientists also found the mineral can promote healthy blood sugar.

In a massive review involving over 60,000 adults, researchers found a link between chromium consumption and blood sugar health. Those with higher levels of chromium in their diets saw better support for maintaining a healthy blood sugar.

Metabolic Health Biomarkers Improve in Just 8 Weeks

A recent human trial published in a respected health journal revealed that a small dose of a special extract goes a long way to target metabolic health.

Young participants in this study took a small dose of just 100 mg per day of grape seed extract.

In just 8 weeks researchers successfully confirmed positive support for insulin function in both production and the cells’ ability to respond and use glucose in a healthy way.

The positive effect of the extract is welcome news for all adults, especially for Americans adults. Recent data confirms 33% of American adults need metabolic support, and the numbers get worse in the aging population.

Dr. Sears sourced a high-quality grape seed extract for his new wellness drink to match the same amount used in the study. He says, “I couldn’t be happier that my new drink has the potential, with regular usage, to help improve the lives of a third of all Americans, if not all Americans.”

Dr. Sears’ FREE Metabolic Makeover Guide!

To encourage a return to a healthy primal diet, **Ultra Metabolic Rescue** is being released with Dr. Sears’ all new keto-friendly recipes that encourage the body to turn fat into energy.

Plus, there are simple exercises that can be done in just a few minutes a day, that put you back on the path to primal fitness in a fun, fast and easy way.

The diet plan stresses the consumption of healthy animal fat from sources such as fatty, grass-fed steak, eggs, and non-starch vegetables.

In the standard North American diet, people get most of their energy from carbohydrates in grains, wheat, and starches. But under the *Metabolic Makeover* diet, users get most of their energy from healthy animal fat.

“You don’t get fat by eating fat,”

New energy and wellness drink from Dr. Al Sears MD for your metabolic makeover

Dr. Sears said. “Carb-heavy diets prevent the body from making full use of the fat you have, so it just sits there.”

The anti-aging doctor adds that “starvation diets” aren’t ideal either.

“You should feel satisfied when you enjoy a meal. Eating the foods you love not only makes sense, it’s what nature intended for you,” Dr. Sears added. “And this is the core philosophy behind **Ultra Metabolic Rescue**.”
